

## We get your eLearning happening

Practical Learning Solutions is an Adelaide based private consulting business specialising in **eLearning design, content, workshops, and training strategies.**

We have the knowledge and experience to guide you through the **eLearning maze** by creating the eLearning for your business or organisation and up-skilling your own learning and development staff.

If you are developing your own eLearning content, we can provide the **instructional design** expertise to put all the pieces together and get you ready for programming.

Practical Learning Solutions works **with you**, for you.

## We make training Easier

Practical Learning Solutions can help you invest in the right **training strategy** to give your organisation the learning outcomes needed to meet new demands and implement change. We can provide the expertise to help you select and develop that strategy.

We have over 15 years of **experience** in developing, implementing and advising on training strategies for the workplace.

Practical Learning Solutions provides the practical application of learning theory to the workplace, with a strategy in your language, to achieve **your objectives.**

Practical Learning Solutions can deliver **customised workshops** at your location to enable your trainers or learning and development staff to renew their skills or to update them to accommodate eLearning.

Practical Learning Solutions can also provide **coaching** and **mentoring** to your staff to support them in the design and delivery of training - particularly eLearning.

## We can do it for you

Whether you want to develop a new eLearning program or convert an existing training program Practical Learning Solutions can **guide you**, or design the entire content.

We match the eLearning content to the desired outcomes, organise your content and design the learning activities to maximise learning. We ensure a strong content foundation before we apply the technology, providing an **engaging** experience for the learner.
