everywhere Learning

Do you or your staff have lots of questions about eLearning?

Let us come to you and answer them in an informal 2 hour session!

About the session

This two hour session is an informal lecture style format with lots of room for discussion and questions throughout and using examples from your organisation - so it's relevant to you!

The general structure of the session is:

- Why eLearning? And why it doesn't mean the end of face-to-face training.
- When to use eLearning? Sometimes you just need to find the right blend.
- How to design eLearning? And how to bore your learners.
- Why eLearning is not about IT but about using your training skills.
- Structure, content, and graphics - oh my!
- Example: from your organisation.
- Assessments? And how to annoy your learners.
- Making it work...when the learner leaves the computer.
- Resources to help you.

What you need to do:

- Contact us to book a session.
- Send us any particular questions your staff have.
- Send us a document (e.g. a SOP) or topic (e.g. WHS for managers) that you are thinking about turning into an eLearning course or module.
- Invite your staff to come along with their lunch or cup of coffee and get their questions answered!
